9. Click Account and fill in all fields with your personal information
10. Enter your first real patient and complete a SOAP note!

> **Coaching Tips!**
> You will receive a 7-Step Game Plan via text message to get up and running fast!
>
> All injury data entered during your Game Plan will remain in your purchased account!

Instructions for Adding Additional ATs, Athletic Training Students and Healthcare Team Members
1. The primary account holder signs in
2. Click Account, Account Options, Team Members
3. Click Add Team Member
4. Enter team member's information including an email and password*
5. Check the box if the individual is a CAATE accredited athletic training student (this will limit certain features), or if you want the individual to have read-only access
6. Leaving both boxes unchecked will give the team member full access to all features
7. Click Sign Up!

*Each team member can change their own password once they log in by clicking Account and scrolling down to their information.

Add Your AT Staff If you have additional AT staff or athletic training students, they must be added by the primary account holder in the Team Members section within Account Options. Additional AT staff members should not create individual trial accounts. This way all staff can view all records in a single account for seamless communication.

Multi-School Groups We recommend a **Regional Manager Account** for groups of schools or organizations in which one or more ATs need access to multiple schools. Please contact us first before creating your Game Plan account or adding team members.

RECORD KEEPING MADE SIMPLE.
